There is but little of interest to report from this part of "God's country," as all of the "old boys" are about as usual. Of course the daily amount of hicking is indulged in, but the kickers, as a general thing, are a class of man (?) who never lived one half as well as their hemes (if they ever had a home), as they do now. Among several hundred old men living under one roof it is to be expected that there will be, and are, more or less crasks.

" In the opionion of the writer, and that of the accres he has talked with during the past few days, there is no more gentlemanty manno man who has the good of old vets more at heart—chan the present communicant, Major McKee. As to the hospital service, under the supervisors of the physician in charge—Dr. Spalding—no intelligent or decent man is the home can truthfully my one word derogatory to or of either the dector or his assistant. It is a personal knowledge with the writer that Dr. Spalding is not only willing but always ready to attend to the waste and calls of the sick, either during the day or night, because he (the writer) was melionally the after midnight hours, and by sending to the hospital the dector promptly maps ded to but call.

ONESTY IS THE BEST POLICY to save a few cents per pair, leaving the con-sumer to take chances of their breaking after a short time.

For over a quarter of a Century \$1,000.00 DOLLARS REWARD for shoddy or spurious leather of any kind found in any shoe of our manufacture. Ten to twenty-five cents per pair is a small amount to save in purchasing a pair of shoes and take chances of poor service, and perhaps spoil pour feet by ill-fitting, ungainly-appearing shoes, which will be a source of vexation instead of pride.
